COS/MOS  
FOR MEN

INTIMATE WASH

Intimate wash invented to **keep the pistol clean.**  
pH balanced, anti-itch, anti-odour,  
anti-fungal, skin moisturize

HYPALLERGENIC

# INTIMATE WASH INVENTED TO KEEP THE PISTOL CLEAN

Delicate and effective care of intimate areas, based on extremely gentle cleansing substances and carefully selected active ingredients that strengthen the skin's protective barrier. This foam provides a long-lasting sensation of intimate cleanliness and freshness.

# BLACK PEPPER ORAL CARE SELECTION

A simplified luxury edition inspired by the nature. SLS, flouride & parabens free

**Bacto-Zyme®** is a multi-faceted enzyme solvent that supports deep microbial cleaning on all surfaces. Its high pH makes it an effective tool for micro-organism control, odor abatement, and degreasing, including metallic surfaces that harbor fatty solids, such as garbage disposals, drains, and septic tanks.

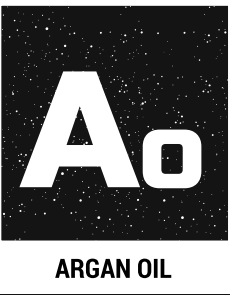

# KEY INGREDIENTS

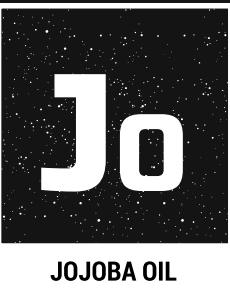

## Provitamine B5

With its excellent humectant properties, provitamin B5 attracts the moisture and deeply hydrates the skin. It also helps your skin build up a barrier against irritation and water loss. Provitamine B5 soothes little cuts or sores like bug bites or shaving irritation. It's essential for the healthy skin.

## Argan oil

Derived from the kernels of the argan tree, Argan oil — or “liquid gold,” as many refer to it - is full of fatty acids and powerful antioxidants, such as vitamin E, that have been proven to have benefits for your body and hair.

## Jojoba oil

Not only does the oil soften, treat and condition your beard and hair, but the benefits of jojoba oil also extend to additional hair growth. It's great skin and hair moisturizing agent. It also controls sebum secretion, helps heal wounds and even can treat Alopecia and hair loss.

## Keratin

Keratin is a fibrinous, naturally occurring protein that contributes to 89% of your hair's structure. It infuses your hair and beard with strength and protects it from outside forces that can contribute to damaging its structure.

## Sea minerals

Natural presence of sea minerals that detoxify and deeply cleanse the hair. Reduce oil and irritation. They help maintain moisture levels, increase blood flow to the capillaries and act as anti-oxidants.

## Orange extract

It has a mild bleaching property. It's gentle and reduces itching and irritation while also correct the oil balance of the skin. Orange has many anti-aging ingredients, the most important being its rich source of vitamin E and vitamin C, full of antioxidants. Use of orange extract on your own skin can treat and prevent several skin problems.

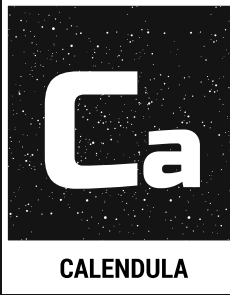

## Inulin Prebiotic

Our skin and its microbiome take quite a battering, which can often lead to inflammation and irritation. Prebiotics give our skin's microbiome a much-needed boost, helping beneficial bacteria grow and preventing harmful bacteria that cause inflammation from proliferating.

## Squalane

Derived from olives, Squalane is the ultimate natural moisturising agent. An antibacterial oil with a non-greasy finish that absorbs slowly, it will rejuvenate tired and sensitive skins without causing congestion or irritation. An effective barrier between your skin and harmful pollutants or dry weather conditions.

## Calendula extract

Derived from olives, Squalane is the ultimate natural moisturising agent. An antibacterial oil with a non-greasy finish that absorbs slowly, it will rejuvenate tired and sensitive skins without causing congestion or irritation. An effective barrier between your skin and harmful pollutants or dry weather conditions.

## Caffeine

Contains antioxidants and anti-aging properties that fight against free radical damage and give your skin a healthy glow. It helps to protect cells from UV radiation and damage. Caffeine is specifically curated for normal to oily skin. In fact, as an alkaloid molecule, it helps to degrade fat through lipolysis by inhibiting the activity of phosphodiesterase.

## Grapeseed oil

Grapeseed Oil is full of healthy fatty acids that reduce inflammation due to acne and clear clogged pores. Grapeseed oil will also keep your skin moisturized, which means your body won't compensate by making too much oil of its own.

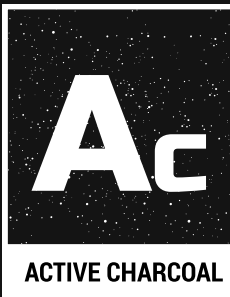

## Salicylic acid (beta hydroxy acid)

It's well-known for reducing acne by exfoliating the skin and keeping pores clear. Salicylic acid works best on blackheads and whiteheads. It has the ability to advance deep into your skin and break up the excess oil and dead skin cells. Reduces inflammation and redness.

## Niacinamide

Can help build proteins in the skin and lock in moisture to prevent environmental damage. Niacinamide can help your skin grow a ceramide (lipid) barrier, which can, in turn, helps retain moisture. Can concurrently rebuild healthy skin cells while also protecting them from damage caused by ultraviolet rays. Minimizes fine lines and wrinkles.

## Activated charcoal

The “stickiness” of charcoal works like a magnet to treat acne and detoxify the skin by removing toxins, dirt and oil. It also has antibacterial and antifungal properties, provide gentle exfoliation, minimize pores and more. It's estimated that 1 gram of this has a surface area of 3000m2, which is the same as 3 Olympic swimming pools.

## Clay

Clay works by soaking up excess oil from the surface of your skin and deep inside your pores to give your skin a less shiny, matte appearance. Just be sure to follow clay-based products with some of the moisturizing ingredients listed here as clay can leave your skin feeling a little dry.

## Lactil®

The intimate skin needs an optimal proportion of water to retain its softness and suppleness. Lactil® is hydro-regulative complex that can help to counteract premature desquamation of the epithelial cells and loss of suppleness by substituting the natural substances that have been washed out by using soaps or other surfactants.

## Manufactured by NOESIS

**NOESIS LTD** is a small export oriented cosmetic company founded in 2020 with its own manufacturing facilities and focused on developing strong brands of high quality products, where details matter. Our 850 m2 factory is situated in Plovdiv, Bulgaria where we work in an open minded, very motivated team of young people, who loves their job and are willing to learn new things, considering alternative problem-solving approaches. Our key mission is to make people feel comfortable and smiling, so they can perform their daily tasks better.
