

PRODUCT CATALOGUE

ARGAN OIL - the exotic treasure. For shiny hair and luxurious feeling.

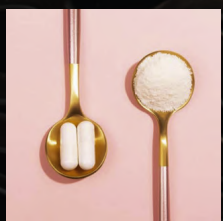

Argan oil is mostly used as a moisturizer for skin and hair because it is full of fatty acids. These oils have been shown to lubricate the hair shaft and help your hair maintain moisture. It's also rich in vitamin E, which provides a fatty layer to your hair and scalp that may help prevent dryness and can help reduce fizziness and boost shine.

ARGAN THERAPY SHAMPOO & CONDITIONER

The exotic treasure. For shiny hair and luxurious feeling.

KERATIN - the key protein for smooth hair and luxurious feeling

Keratin is a fibrinous, naturally occurring protein that contributes to 89% of your hair's structure. It infuses your hair with strength and protects it from outside forces that can contribute to damaging its structure.

KERATIN SHAMPOO & CONDITIONER

The key protein for smooth hair and luxurious feeling
